

# VIP Private Kitchen - Task Descriptions

## Based on Requirements:

1. Dish Creation
  2. Daily Meal Planning
  3. Meal Review Process
  4. Menu Adjustment
  5. Dish Rating and Feedback
- 

## 1. DISH CREATION TASKS

### Task 1.1: Create New Dish Entry

#### Work Description:

- Input dish name and title
  - Provide detailed dish description explaining flavors, ingredients, and culinary approach
  - Document cooking method (grilled, sautéed, baked, etc.)
  - Note dish category (appetizer, main, side, dessert)
  - Set dish difficulty level if applicable
  - Assign preparation time required
  - Assign cooking time required
  - Add any special notes or variations
  - Enable dish to be saved as draft or published
- 

### Task 1.2: Document Protein Specifications

#### Work Description:

- Identify protein ingredient(s) in the dish
- Record protein name (e.g., salmon, chicken breast, tofu)
- Document protein quantity in grams or ounces
- Record protein source/quality (farm-raised, grass-fed, organic, etc.)

- Note cooking temperature/doneness for protein
  - Document protein cooking method
  - Record nutritional information for protein (if tracked)
  - Add any protein-specific preparation notes
  - Flag if protein has allergen concerns
- 

### **Task 1.3: Document Carbohydrate Specifications**

#### **Work Description:**

- Identify carbohydrate ingredient(s) in the dish
  - Record carb name (e.g., risotto, pasta, potato, grain)
  - Document quantity of carbohydrates
  - Note carb source and quality
  - Document cooking method and time
  - Record texture goal (al dente, creamy, firm, etc.)
  - Add any special preparation or flavoring for carbs
  - Document portion size
  - Note any dietary considerations (gluten-free, whole grain, etc.)
- 

### **Task 1.4: Document Fat Specifications**

#### **Work Description:**

- Identify fat sources in the dish (oil, butter, cream, nuts, etc.)
- Record fat ingredient name and quantity
- Document fat type and quality (olive oil, butter, etc.)
- Note cooking temperature limits if applicable
- Record health/dietary considerations
- Document flavor contribution of fat
- Add preparation method (toasted, infused, etc.)
- Note if fat is for cooking, finishing, or both

- Record nutritional information if tracked
- 

### **Task 1.5: Upload Dish Photos**

#### **Work Description:**

- Take high-quality photos of finished dish
  - Capture dish from multiple angles if desired
  - Ensure proper lighting and presentation
  - Upload photos to dish profile
  - Set primary photo to display first
  - Organize photos in order (plated, components, etc.)
  - Add captions or descriptions to photos if needed
  - Compress photos for system efficiency
  - Ensure photos meet quality standards
- 

### **Task 1.6: Write Dish Description**

#### **Work Description:**

- Write detailed description of dish for internal use
  - Describe flavors and taste profile
  - Explain cooking techniques used
  - Note ingredient quality or sourcing
  - Describe plating and presentation style
  - Include any special stories or inspirations
  - Explain how dish accommodates dietary needs
  - Note seasonal availability if applicable
  - Make description clear and engaging
  - Keep description concise but comprehensive
- 

## **2. DAILY MEAL PLANNING TASKS**

## **Task 2.1: Create Daily Meal Plan**

### **Work Description:**

- Select date for meal planning
  - Determine meal slots for the day (breakfast, lunch, dinner, etc.)
  - Identify any special occasions or themes for the day
  - Note any dietary requirements or restrictions to accommodate
  - Check guest availability and preferences
  - Review ingredient availability
  - Plan for ingredient freshness and rotation
  - Ensure variety from previous days' meals
  - Set meal timing and coordination
- 

## **Task 2.2: Select Dishes for Each Meal**

### **Work Description:**

- Browse available dishes from recipe library
  - Filter dishes by meal type (appetizer, main, side, dessert)
  - Select main protein dish for meal
  - Select complementary side dishes
  - Select vegetables or salad component
  - Select bread or starch if applicable
  - Select dessert or sweet course
  - Verify each selected dish fits the day's theme
  - Ensure selected dishes can be prepared simultaneously
  - Confirm adequate time for preparation
- 

## **Task 2.3: Plan Themed Meals**

### **Work Description:**

- Identify theme for the day (Italian week, seafood focus, etc.)

- Select dishes that align with theme
  - Ensure complementary flavors across courses
  - Plan wines or beverage pairings if applicable
  - Create cohesive dining experience
  - Balance traditional and innovative elements
  - Document theme and rationale
  - Communicate theme to kitchen staff
  - Create attractive presentation consistent with theme
- 

#### **Task 2.4: Customize Meals for Dietary Requirements**

##### **Work Description:**

- Review dietary needs of residents/guests for the day
  - Identify which guests have specific requirements
  - Select or modify dishes to accommodate each requirement
  - Create alternatives for guests with restrictions
  - Document substitutions or modifications made
  - Ensure modified dishes maintain quality and appeal
  - Verify no cross-contamination with allergens
  - Communicate dietary accommodations to kitchen
  - Flag any challenging accommodations for discussion
- 

#### **Task 2.5: Assemble Meal Course Structure**

##### **Work Description:**

- Organize selected dishes into logical course order
- Determine course timing and spacing
- Plan progression of flavors (light to heavy, etc.)
- Sequence courses for optimal dining experience
- Ensure adequate preparation time between courses
- Coordinate kitchen workflow for course timing

- Plan serving temperature for each course
  - Document final meal structure
  - Create meal service flowchart if needed
- 

### **3. MEAL REVIEW PROCESS TASKS**

#### **Task 3.1: Review Meal Composition**

##### **Work Description:**

- Examine daily meal plan created by chef
  - Verify course selection and order
  - Assess flavor progression and balance
  - Review dietary requirement accommodations
  - Check against any VIP preferences or requests
  - Verify theme consistency and execution
  - Assess overall dining experience design
  - Identify any concerns or improvements needed
  - Provide feedback to chef if needed
- 

#### **Task 3.2: Review Individual Dishes in Meals**

##### **Work Description:**

- Examine each dish in the planned meal
- Verify dish specifications match documented standards
- Check protein preparation method and doneness
- Review carbohydrate and fat components
- Verify portion sizes are appropriate
- Assess presentation and plating standards
- Check for dietary requirement alignment
- Identify any modifications needed
- Verify all components are present

---

### **Task 3.3: Reject Dishes or Meals**

#### **Work Description:**

- Identify specific dish or meal that doesn't meet standards
  - Document reason for rejection
  - Explain quality or consistency concerns
  - Specify what needs to be corrected
  - Suggest improvements or alternatives
  - Provide rejection feedback to chef
  - Request replacement or modification
  - Set deadline for resolution
  - Document rejection in meal planning record
- 

### **Task 3.4: Request Changes to Dishes or Meals**

#### **Work Description:**

- Identify specific aspect needing modification
  - Describe requested change in detail
  - Explain reason for requested change
  - Suggest specific alternatives if applicable
  - Note if change impacts other menu items
  - Communicate change request to chef
  - Discuss feasibility and timeline
  - Document requested changes
  - Follow up on implementation of changes
- 

### **Task 3.5: Approve Dishes and Meals**

#### **Work Description:**

- Confirm dish or meal meets all quality standards

- Verify all components and specifications are correct
  - Approve dietary requirement accommodations
  - Verify portion sizes and presentation
  - Confirm theme consistency
  - Give final approval for service
  - Document approval decision
  - Communicate approval to kitchen and service staff
  - Mark meal plan as ready for service
- 

### **Task 3.6: Provide Review Feedback and Comments**

#### **Work Description:**

- Write detailed feedback on reviewed dishes
  - Highlight strengths and positive elements
  - Identify areas for improvement
  - Provide specific, actionable suggestions
  - Explain feedback rationale
  - Suggest alternatives if relevant
  - Praise exceptional execution
  - Offer constructive criticism
  - Record feedback for chef reference
  - Make feedback available for team learning
- 

## **4. MENU ADJUSTMENT TASKS**

### **Task 4.1: Analyze Feedback and Requests**

#### **Work Description:**

- Collect feedback from all reviewers
- Organize feedback by dish or theme
- Identify common requests or concerns

- Analyze patterns in feedback
  - Prioritize most important changes
  - Review specific comments and suggestions
  - Assess impact of requested changes
  - Discuss with team before implementing
  - Document feedback analysis
- 

#### **Task 4.2: Modify Dish Based on Feedback**

##### **Work Description:**

- Review specific feedback for dish
  - Identify which elements need modification
  - Determine modification approach
  - Update dish specifications
  - Adjust proteins, carbs, or fats if needed
  - Modify cooking methods or times if needed
  - Update portion sizes if requested
  - Revise plating or presentation
  - Test modified dish before re-introducing
  - Update dish documentation with changes
- 

#### **Task 4.3: Update Menu Based on Requests**

##### **Work Description:**

- Review all requests for menu adjustments
- Prioritize which changes to implement
- Update daily meal plan with new selections
- Replace underperforming dishes
- Add newly approved dishes
- Remove discontinued items
- Reorder courses if timing needs adjustment

- Verify updated menu still meets dietary needs
  - Ensure updated menu maintains quality standards
  - Communicate menu updates to staff
- 

#### **Task 4.4: Revise Recipe Documentation**

##### **Work Description:**

- Update recipe with approved modifications
  - Revise ingredient lists and quantities
  - Update cooking methods and times
  - Modify portion sizes in recipe
  - Update nutrition information if affected
  - Revise plating and presentation instructions
  - Add new variations created
  - Update photography if dish changed significantly
  - Archive previous version of recipe
  - Communicate recipe updates to kitchen team
- 

#### **Task 4.5: Implement Dynamic Menu Changes**

##### **Work Description:**

- Create process for adapting menu to feedback
- Establish timeline for menu adjustments
- Create version control for menu changes
- Document all modifications made
- Communicate changes to all relevant staff
- Train team on modified dishes
- Update printed menus or displays
- Gather feedback on changes implemented
- Refine process based on results

---

## 5. DISH RATING AND FEEDBACK TASKS

### Task 5.1: Rate Dishes with Star System

#### Work Description:

- Establish rating scale (1-5 stars or similar)
  - Define rating criteria (taste, presentation, execution, etc.)
  - Rate each dish after service or review
  - Consider overall quality and consistency
  - Factor in how well dish meets standards
  - Provide rating from reviewer perspective
  - Allow separate ratings for different criteria if needed
  - Record rating in system
  - Track ratings over time for trending
- 

### Task 5.2: Add Detailed Comments and Feedback

#### Work Description:

- Write comments describing dish quality
  - Document what was done particularly well
  - Identify any issues or concerns encountered
  - Provide specific feedback on taste and flavor
  - Comment on texture and preparation
  - Note presentation and plating quality
  - Add suggestions for improvement
  - Explain reasoning behind rating
  - Make feedback constructive and actionable
  - Include any personal notes or observations
- 

### Task 5.3: View Ratings and Feedback Summary

### **Work Description:**

- Access dashboard showing all dish ratings
  - View average rating for each dish
  - See trend of ratings over time
  - Read comments from different reviewers
  - Filter ratings by reviewer or date range
  - Compare ratings across similar dishes
  - Identify highest and lowest rated dishes
  - Analyze rating patterns
  - Use data for menu planning decisions
- 

### **Task 5.4: Identify Excellence and Improvement Areas**

#### **Work Description:**

- Review ratings and feedback to identify top-performing dishes
  - Recognize dishes that consistently receive high ratings
  - Identify dishes needing improvement based on ratings
  - Analyze feedback for common improvement themes
  - Determine which dishes to feature or repeat
  - Identify which dishes to modify or replace
  - Celebrate and promote excellent dishes
  - Create action plans for improvement
  - Share excellence recognition with chef
- 

### **Task 5.5: Track Feedback Trends Over Time**

#### **Work Description:**

- Monitor how ratings change week to week
- Identify seasonal trends in dish popularity
- Track impact of menu modifications on ratings

- Compare different reviewer perspectives
  - Analyze feedback for emerging patterns
  - Note any declining dish performance
  - Identify newly popular dishes
  - Track improvement of previously modified dishes
  - Use trends for strategic menu planning
- 

**Task 5.6: Establish Feedback Loop with Kitchen**

**Work Description:**

- Share rating results with chef and kitchen team
  - Discuss feedback in team meetings
  - Celebrate high-rated dishes
  - Discuss improvement areas constructively
  - Brainstorm solutions for low-rated items
  - Acknowledge team's hard work
  - Use feedback for staff development
  - Create ongoing dialogue about quality
  - Document decisions made based on feedback
  - Follow up on implemented improvements
-

## ROLE-TO-TASK MAPPING

### Kitchen Owner / Manager Tasks

- ✓ Review meal composition
- ✓ Review individual dishes
- ✓ Reject/approve dishes and meals
- ✓ Request menu changes
- ✓ Analyze feedback and trends
- ✓ Rate dishes
- ✓ Provide detailed feedback

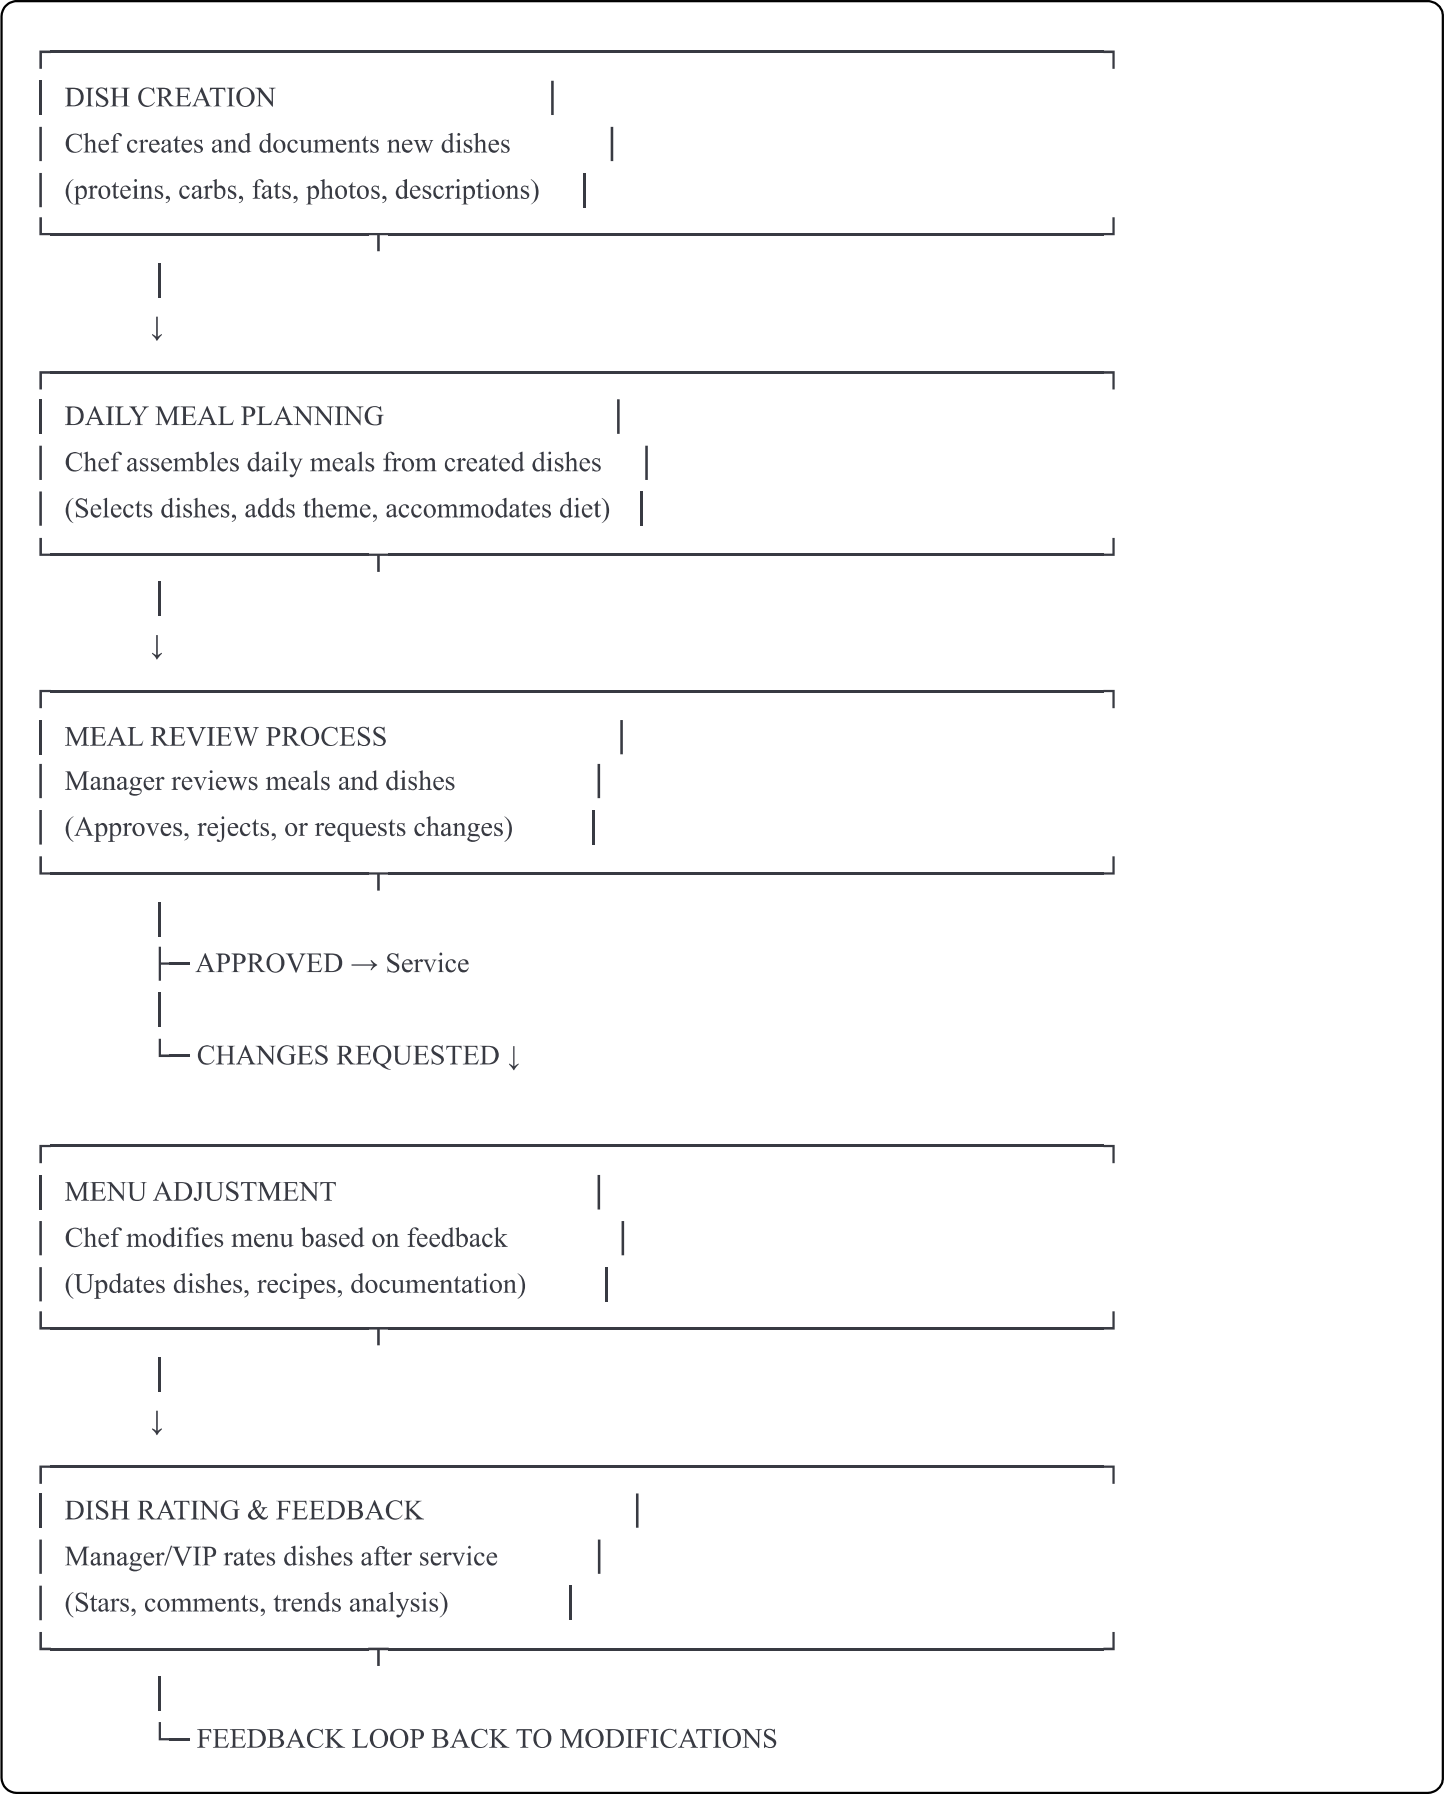

### Head Chef Tasks

- ✓ Create new dishes
- ✓ Document nutritional specifications
- ✓ Create daily meal plans
- ✓ Select dishes for meals
- ✓ Plan themed meals
- ✓ Customize for dietary requirements
- ✓ Modify dishes based on feedback
- ✓ Update recipe documentation
- ✓ View ratings and implement improvements

### Sous Chef Tasks

- ✓ Assist in dish creation
- ✓ Execute planned meals
- ✓ Provide feedback for ratings
- ✓ Implement documented modifications

# WORKFLOW OVERVIEW

## **KEY TASK CHARACTERISTICS**

### **Dish Creation Tasks:**

- Focus: Documentation and specification
- Owner: Head Chef
- Frequency: Ongoing as new dishes created
- Objective: Build comprehensive dish library

### **Daily Meal Planning Tasks:**

- Focus: Selection and customization
- Owner: Head Chef
- Frequency: Daily
- Objective: Create optimized meals for the day

### **Meal Review Tasks:**

- Focus: Quality assurance and approval
- Owner: Kitchen Owner/Manager
- Frequency: Before each meal service
- Objective: Maintain culinary standards

### **Menu Adjustment Tasks:**

- Focus: Continuous improvement
- Owner: Head Chef + Kitchen Owner
- Frequency: As feedback warrants
- Objective: Responsive and evolving menu

### **Rating & Feedback Tasks:**

- Focus: Performance measurement
- Owner: Kitchen Owner/Manager + VIPs
- Frequency: After each meal service
- Objective: Track quality and drive improvement
